

IN THE UNITED STATES PATENT & TRADEMARK OFFICE

Applicant: Lars Wikstrom

Title: Supporting Part Of A Vehicle Door

U.S. National Phase of PCT/SE2005/000209

Filed: February 17, 2005

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Attn: Mail Stop PCT-US/DO

INFORMATION DISCLOSURE STATEMENT

Enclosed is Form PTO-1449 identifying one (1) reference.
Also enclosed is a copy of the one identified reference.

The present application is the United States National Phase of PCT/SE2005/000209. The identified reference was cited in the International Search Report issued in connection with the corresponding PCT application.

It is noted that the reference was cited in Category A, indicating that the reference merely defines the state of the art and is not considered to be of particular relevance to the PCT

claims, which correspond to the claims pending in the present United States National Phase.

Also enclosed is a copy of the Written Opinion issued by the International Searching Authority in connection with the corresponding PCT application. The Written Opinion concludes that the PCT claims which, as noted above, correspond to the claims of the United States National Phase, are patentable over the cited reference.

Applicant respectfully requests that the enclosed reference be formally cited of record in connection with the United States National Phase as generally illustrating the background state of the art.

Respectfully submitted,

Mark P. Stone
